

FLIQ PAYROLL SYSTEM – Functional Specification Document

1. Project Overview

Project Name: FLIQ Payroll System

Purpose: To provide an efficient and centralized payroll management system for FLIQ Athletics, ensuring accurate employee record management, payroll processing, leave tracking, and government contribution monitoring.

Objectives:

- Maintain a complete employee master list and records.
- Monitor leave balances and supporting documents.
- Integrate uploading of biometrics file
- Automate payroll computation for salaries, overtime, absences, leave and deductions.
- Generate payslips and accurate payroll reports in PDF or CSV format.
- Improve payroll accuracy, efficiency, and reporting transparency.

Scope of System:

The system will cover employee masterdata management, government contribution records, biometrics integration, payroll computation, and payroll report generation with export functionality in PDF or CSV format.

2. Module Functional Specifications

A. Employee Masterdata Module

Features:

- Add / Edit / Delete Employee Records
- Search Employee by name or employee number
- Filter by:
 - Department
 - Employment Status
 - Position
 - Date Hired
 - Active / Inactive
- Export to:
 - PDF
 - CSV

Employee Personal Details Fields:

Basic Information

- Employee ID
- Last Name
- First Name

- Middle Name
- Gender
- Civil Status
- Date of Birth
- Age
- Nationality
- Religion

Contact Information

- Mobile Number
- Email Address
- Home Address
- Emergency Contact Person
- Emergency Contact Number
- Relationship to Emergency Contact

Employment Information

- Employment Status
 - Regular
 - Probationary
 - Contractual
 - Part-Time
 - On-Call
- Department
- Position / Job Title
- Supervisor / Reporting Manager
- Date Hired
- Date Regularized
- Salary Type
 - Monthly
 - Daily
 - Fixed Payroll
- Basic Salary
- Payroll Frequency
- Bank Name
- Bank Account Number
- TIN Number

Government Contribution Details

- SSS Number
- SSS Contribution- ER Share
- SSS Contribution- EE Share
- SSS Loan
- PhilHealth Number
- PhilHealth Contribution- ER Share
- PhilHealth Contribution- EE Share

- Pag-IBIG Number
- Pag-IBIG Contribution- ER Share
- Pag-IBIG Contribution- EE Share
- Pag-IBIG Loan

C. Biometrics Integration

- Upload biometrics file
- Match attendance logs with employee records
- Validate date, time-in, and time-out entries
- Detect absences, late arrivals, undertime, and overtime
- Allow manual review and adjustment before payroll computation
- Generate attendance summary report in PDF or CSV
- Use validated attendance data for payroll computation and payslip generation

D. Payroll Computation Module

Payroll Cutoff:

- Every 12th and 27th of the month (allow modification)

Payroll Logic

- Salary Type = Daily
 - Take the Daily Basic Salary and the attendance based on the biometric file
- Salary Type = Monthly
 - Take the Monthly Basic Salary and the attendance based on the biometric file
- Salary Type = Fixed
 - Take the Fixed Basic Salary and NO biometric attendance integration required

Payroll Components:

Earnings

- Basic Salary
- Overtime Pay
- Regular Holiday Pay
- Special Non-Working / Rest Day
- Leave with Pay
- Incentives
- Allowances
- 13th month pay
- Bonuses
- Adjustments

Deductions

- Absences
- Late
- Undertime
- Loan Deductions

- Cash Advance
- SSS EE Contribution
- PhilHealth EE Contribution
- Pag-IBIG EE Contribution
- SSS Loan
- Pag-IBIG Loan
- Other Deductions

Payroll Formula > Gross Pay- Deductions = Net Pay

Features:

- Manual payroll adjustment
- Payroll preview
- Payroll locking after approval
- Payroll cutoff

E. Payroll File Report Module

Reports

- Payroll Summary
- Payslip Generation
- Employee Payroll History

Export:

- PDF
- CSV

3. User Roles & Permissions

- Super Admin
- HR Admin
- Payroll Officer
- Finance Officer

4. Non-Functional Requirements

- Secure login
- Role-based access
- Audit trail

5. Future Enhancements

- Employee self-service portal
- Payslip email distribution
- Leave Tracker
- 13th month computation
